

Flower Mandala

Trace your circular object onto your construction paper. This will serve as your frame. Typically Mandalas are circular, but you can make it any shape.

Cut out your shape so that it looks like a frame. The outer circle and then the inner circle.

Place the frame onto the first piece of contact paper. Be sure to do this carefully as it is very sticky and will wrinkle easily.

Place your gathered flowers into the middle of the frame taking care to press firmly so the flatten and stick to the contact paper.

Once you're satisfied with your flowers and herbs placement the you can place the second piece of contact paper on top of your frame. Hand it up for all to enjoy.
